January 12, 2004

- AC cam-type controllers, open type, for speed control and similar applications, single and three phase, with the following maximum ratings at 600V, unless otherwise noted.

Series P5 suitable for use as motor disconnecting means

Type	Amp rating (3-ph)	Amp rating (1-ph)
P5-125...	150A, 600V ac	60hp, 600V ac
P5-160...	200A, 600V ac	60hp, 600V ac
P5-200...	200A, 600V ac	75hp, 600V ac
P5-250...	250A, 600V ac	75hp, 600V ac
P5-315...	300A, 600V ac	100hp, 600V ac

**Notes:**

1. The type designations are completed with the numbers and letters indicating the switching combination, type of mounting, operating mechanism and auxiliary devices provided.
2. The controllers are for back-of-panel mounting or for base plate mounting. The operating mechanism may be provided with special purpose equipment as required for key operating, locking etc.
3. Types P5-125 and P5-160 are rated 125 A respectively 200 A (600 V) 1 phase 2 pole, 3 phase 3 or 4 pole, when provided with double-throw

function.

4. The controllers may be provided with Certified auxiliary units.
5. The controllers are Certified for use in equipment where the suitability of the combination is to determined by CSA International.
